(267) 596 - 6677

vtjia51@gmail.com

Philadelphia, PA

SKILLS

JavaScript (jQuery, React, Node, Next), Express, SQL, NoSql (MongoDB), Python, Git, Bootstrap, tailwind.css, HTML5 and CSS3

WORK EXPERIENCE

UI & Front End Developer (Contractor)

Oct 2022 - Nov 2022

Eggcellent Philly

Philadelphia,

PA

- Created prototypes, user interface designs, and wireframes for the menu list and menu details, catering to both web and mobile platforms.
- Implemented visual presentation and layout enhancements based on specifications to improve user experience during page navigation.
- Converted approved designs into code and made necessary adaptations to align with existing codebase.

Sortation Associate to Learning Ambassador

Jun 2019 - Sep 2021

AMZL Amazon Logistics

King of Prussia & Philadelphia,

PA

- Conducted orientation training for newly hired employees and carried out performance-based evaluations of staff members.
- Provided instruction to newly appointed shift managers and cross-trained employees in the procedures for "Outbound Problem Solve."
- Contributed to the implementation of the CampusShip system at the facility as a means to remove unnecessary sorting processes and guarantees the timely delivery to customers' doors.
- Utilized Amazon's data tools to register and organize data for the return process of faulty items.
- Effectively utilized workflow spreadsheets to monitor daily shipments.
- Conducted diagnostics and quality checks on operational tools such as TC devices, label printers, and scanners.

VOLUNTEER/RELEVANT EXPERIENCE

Web Administrator and Developer

Jan 2023 -

Present

[Square One Church](#)

- Managing and improving the church's website, ensuring its online presence is enhanced through content editing and uploading.
- Updating content and addressing existing issues like broken links and non-existent pages.
- Currently developing a new iteration of the current Squarespace one.
